Our eco labels in a nutshell

GOTS®

GOTS® is recognized worldwide as the number 1 processing standard for textiles made from organic fibres.

Organic
Certified by
Control Union
CU 1016127

GOTS® stands for Global Organic Textile Standard. This quality mark ensures that fabrics are made from natural and organic fibers and checks whether cotton cultivation meets the criteria of organic farming. The entire chain (from socially responsible production to packaging, distribution and social criteria) must meet strict requirements. Textiles that consist of at least 70% organic raw materials may bear this quality mark.

GOTS® certified cotton does not use any harmful chemicals. Factories use sustainable wastewater systems and energy consumption must be kept as low as possible.

The mark of
responsible forestry

FSC®

FSC® stands for Forest Stewardship Council. The goal of FSC® is to promote sustainable forest management.

FSC® speaks of sustainable forest management when the ecological, social and economic aspects associated with forest management are taken into account in a balanced way. FSC® ensures that forests can be preserved through responsible forest management.

Responsible forest management includes protecting the habitat of plants and animals and respecting the rights of the local population and forest workers. But also earn money while preserving the forest. A well-managed forest is less likely to be felled for other purposes, such as palm oil or soybean plantations and mining.

Fairtrade®

The goal of Fairtrade® is to minimize the inequality of world trade and to improve the lives of farmers.

Fairtrade® is not just about creating employment and income. For example, we also look at where the most help is needed in terms of the living and working conditions of the farmers. It is decided what needs to be worked on, for example training, but also better housing. Farmers who participate in the Fairtrade® program work under safe and healthy conditions. They work normal working hours and there is no question of child labour. The work process must also be carried out in the most environmentally friendly way possible.

Fairtrade® also wants to reduce CO2 emissions. They do this, for example, by investing in projects that support farmers in developing countries. By replacing old stews with improved versions, CO2 emissions are reduced by 50%!

ZEROTREE®

ZEROTREE® is our internationally registered trademark. We do not cut down trees to make this paper.

This line of bags is known for what it says Zero Tree: no use of trees. ZEROTREE® is a sturdy type of paper that is made from natural raw materials such as abaca (banana leaf), grass fibres, straw or recycled cotton fibers from the textile industry. We make bags, shipping boxes and luxury gift boxes from these sheets of paper. All products have a natural look or are coloured with natural dyes.

ZEROTREE® makes a social contribution in the developing countries where these bags and boxes are produced.

ZEROTREE®

ZEROTREE® is our internationally registered brand name. Literally translated the name ZEROTREE® says what this means: zero tree, or “no tree”. No trees are cut down during the production of ZEROTREE®. The “paper” used for ZEROTREE® is made from other materials.

By choosing ZEROTREE® you show that you want to reduce logging and pays attention to life in and around the woods.

Natural resources

ZEROTREE® is made from handmade paper that consists of natural raw materials such as banana leaves (abaca), grass fibers, straw or recycled cotton residues from the textile industry. The cords are made of jute fibers. Because of the use of natural materials, ZEROTREE® has a natural and sustainable appearance.

Social and ecological

ZEROTREE® makes a social contribution to the local population in India and the Philippines. ZEROTREE® creates jobs that give employees a fair salary. The money that is earned can be invested in education and contributes to the maintenance of families. The labor process is also free from child labor and care is taken to ensure that

employees do not work excessive hours. Because no trees are felled, ZEROTREE® makes a positive contribution to conservation and life in and around forests. The end result is a recycled, sustainable bag, shipping box or luxury gift box that was created under socially and ecologically responsible conditions.

Our brand name ZEROTREE® is internationally registered under number: 018638881

Material types

1. Abaca (banana leaves)
2. Recycled jeans or cotton
3. Recycled straw
4. Recycled grass fibers

Code of Conduct

präsent-service thinks it is important that its products are manufactured in an honest and responsible way.

In this code of conduct, we describe the guidelines and principles that we pursue and organize as an organization. In this way, we contribute to ethical standards in the countries where we are active.

1. Laws and regulations

FF-PACKAGING complies with all local laws and regulations in the relevant country.

2. Child labour

FF-PACKAGING does not accept child labour at the production sites. The locally applicable minimum age per country is respected.

3. Working conditions

Every employee works in a safe and healthy environment, aligned with local laws and regulations. Forced labour and intimidation are not tolerated. The employees are provided with food and drinks.

4. Discrimination

Discrimination based on gender, age, descent, religion and sexual orientation is not tolerated at the production sites.

5. Working hours

The employees work no longer than the maximum permitted number of hours per day/week in the relevant country. Overtime is paid. Every employee receives enough resting time per working day.

6. Salary

Salary is paid to employees at least once a month. Wages will never be lower than the minimum applicable wage in the country concerned.

7. Freedom of association

Employees are free to join an association or trade union without being affected by it in their work environment.

8. Environment

Both the purchase of raw materials and the production process correctly handle local environmental standards. Waste and residual material are disposed of and where possible recycled. We continuously strive to optimize these processes.

Bags

ALWAYS
IN PURSUIT
OF BETTER

Paper

**Looking for a supplier that can print paper bags into real pieces of art?
You have come to the right place at präsent-service.**

We produce and print many different types of paper bags. From budget to luxury paper bags. Did you know that we have the largest and most diverse range of paper bags in stock throughout Europe? We can deliver all these bags to you quickly, both with and without printing, within 5 working days!

Would you like to put together printed paper bags entirely according to your wishes? Then choose our custom-made solutions. For example, from 250 pieces you can determine the paper quality, the finish and the colour and material of the handles yourself.

Available in 4 types

Budget

Twisted

Luxury

Gift

FSC® certified paper

We can make paper bags from FSC® certified paper. With this you support responsible forestry. The organization "Forest Stewardship Council", or FSC® for short, ensures and guarantees that the wood from which the paper is made comes from responsible and sustainable forestry. This also means that all ecological, economic and social aspects of forestry must be in a responsible balance in relation to humans and animals that depend on the forest. All parties in the supply chain must be FSC® certified. FF-PACKAGING is FSC® certified (SCS-COC-005184).

Recycled paper

White or brown recycled kraft paper is made from collected waste paper. Recycled paper consists of at least 80% recycled paper material whose paper fibers are long enough to keep the paper strong. The other 20% mainly consists of binders.

10 reasons to buy paper bags

1. Environmentally friendly and durable.

Paper bags are often 100% recyclable and can be made from recycled paper and FSC® certified paper.

2. Easy to print.

Because we have our own screen printing department, we can print your paper bags quick and easy from 100 pieces in one or more PANTONE colours. Do you prefer CMYK printed paper bags? We can print your paper bags in digital print, offset printing or flexo printing.

3. The perfect way to use for advertising.

On sunny days, thousands of local residents, day trippers and foreign tourists often walk in the city centers, villages and large municipalities. A better way to promote your store or business through printed paper bags at those times is impossible to imagine. The many people who shop or visit a terrace will undoubtedly notice your logo, brand or store. Chances are that people will come to your store and then make a purchase. Printed paper bags perfect to use as advertising.

4. Recyclable.

Because our bags are made from kraft paper and often contain large paper fibers, there is a good chance that the paper bags can be recycled afterwards. Depending on the extra materials used in the production process and the treatment of the density of the paper material, paper kraft bags can often be recycled. For example, newspapers are made from recycled paper.

5. Low price.

We offer you many paper kraft bags at a low price. Our budget paper bags are the cheapest paper bags in our range.

6. Quick delivery.

How fast? Within 5 working days if necessary! Because we keep large quantities of bags in stock we can deliver these quickly with or without printing.

7. Diversity.

We offer you a wide variety of paper bags with different thicknesses, ecological materials, sizes, colours, handles and designs. It is not without reason that FF-PACKAGING has the largest and most diverse range of paper bags in stock, which can all be printed. Some examples are recycled paper bags with handles, paper window bags, luxury laminated paper bags, and cheap budget paper bags.

8. Easy to order.

You can buy your paper bags quickly and without difficulties in our webshop.

9. FSC® certified paper.

Did you know that when you buy FSC® certified paper bags you contribute to the sustainability of forest management? The FSC® certified paper bags that we produce are made from trees from a responsible logging industry. The trees that are felled and used for the production process are replanted immediately after felling. Within the foreseeable future, the tree will be fully grown into a new large tree. As soon as this tree is felled again, the process starts again. The FSC® organization manages many forests with trees in this way. This method means that pieces of forest and jungles remain uncut.

10. Suitable for every industry and purpose.

Whether you run a clothing store, a supermarket franchise or take part in a trade show, our bags can be used for all purposes. It goes without saying that you need sturdy quality paper bags to do heavy shopping. Do you have a luxury clothing brand? Then printed paper bags with luxurious finishes can fit well with the look of your corporate identity. For example, thin paper kraft bags are sufficient for pharmacists because of the light items that have to be carried in the paper bags. In short, paper bags are suitable for everything and everyone.

Cotton & Canvas

Cotton bags are ecological bags. Did you know that we have the largest and most diverse range of cotton bags and canvas bags in stock in all of Europe?

We can print these cotton bags, but also deliver them to you unprinted, even within 5 working days! Luxury canvas bags, vintage beach bags, mini cotton bags or rather cheap basic cotton bags with printing? With our own custom-made productions, we can guarantee you (printed) cotton bags and canvas shoppers for the best price.

Why choose cotton?

25

Available
from 25 pieces

Different
types

Durable
& recyclable

Available in GOTS® or
Fairtrade® certified cotton

Ecological cotton bags

Cotton is an unbleached natural ecological product and has a natural ecru colour. The strong material ensures that the consumer will reuse the cotton bags more often, for this reason this can certainly be called a sustainable carrier bag. You can also choose Fairtrade® certified, GOTS® certified or recycled cotton.

Fairtrade® certified cotton

Fairtrade® is both a quality mark and a global movement. Every quarter we pay a percentage of all products sold with a Fairtrade® label. Do you think it is important that farmers and workers in developing countries get a better place in the trade chain? Then choose Fairtrade® certified cotton. Also known in the Netherlands under the Max Havelaar quality mark. We have been officially Fairtrade® certified since 2016 with the number FLOID 35254. We can supply all models of cotton and canvas bags with a Fairtrade® label. If you choose this, the Fairtrade® label will be stitched into the bag, so that you can show that you are environmentally conscious.

GOTS® certified cotton

With the GOTS® quality mark you are assured of cotton bags that are produced in a socially responsible manner. When you purchase cotton bags with this certificate, you can be sure that at least 70% of the fibers in your cotton bags are made from organic cotton. The percentage of organic fiber is stated on the label / label of the bags. In this way you also show your consumer that you are environmentally conscious.

Organic
Certified by
Control Union
CU 1016127

Recycled cotton

The recycled cotton bags are made from 100% recycled waste from the cotton industry and are available in different colours. By providing the bags with a label with the recycled logo, you also show your customers that you operate in an ecologically responsible manner.

Cork

Ecological cork bags

Cork material is 100% natural, as it is made from the bark of a tree. In addition, cork is completely biodegradable and fully recyclable. Bags made of cork therefore fit perfectly within our sustainable and ecological range.

Juca

Made from natural materials

The outside of the bag is made of jute fibers and the inside has a cotton lining. The juca bag is a sustainable bag because the bags are reusable and are produced entirely from natural materials. The jute weave on the outside of the bag can be provided with dyed jute.

Jute

Ecological material

Jute is one of the most widely used vegetable fibers in the world. Jute bags are durable, because jute fibers are extremely strong and ensure that jute bags can be reused and last a long time. In this way, your advertising will always be reflected in the street scene and you will contribute to a sustainable society. Jute bags have a coarse structure and the material feels somewhat hard.

Juco

A mix of jute and cotton

Juco also stands for the first two letters of both materials in English (JUte & COTton). Jute is an extremely strong material and feels a bit rough. Cotton, on the other hand, feels very soft. Mixing these two materials creates a strong bag with a body with its own look & feel. Juco bags are sustainable because they are reusable. Juco bags are also ecological because the material of these bags consists of natural fibres.

PP woven Non-woven R-PET

2 4

PP woven

PP woven bags are made of woven Polypropylene material, which is a type of plastic. The woven structure ensures that these bags are very strong. It is not without reason that PP woven shopping bags are often used as reusable bags in supermarkets. Because these shoppers can be used for a long time, these are durable bags.

1 3 7

Non-woven

Non-woven bags are ideal for long-term use. In addition, the bags have an excellent price / quality ratio. These bags can be made in different material colours and can be printed with your logo or design. Are you looking for a sustainable alternative? Non-woven bags are 100% recyclable and we can also produce them in recycled non-woven material.

5 6

R-PET

R-PET bags are made from recycled PET bottles, such as your own soft drink bottle. This is collected and referred to as Post Consumer Waste (PCW). This material is recycled and this creates R-PET material (recycled polyethylene terephthalate). This is a soft material, which is finished on the outside with a gloss or matt lamination.

We produce reusable bags based on durable materials. All our reusable bags can be used until they are really worn out. This way you can use a reusable bag for several years and you do not have to buy single use bags.

Felt bags

Are you looking for a strong, trendy and durable bag? Then choose the felt bag.

This is a bag that can be finished in endless ways. This way you can produce the bag exactly the way you want it. The endless options allow you to design a unique bag. The felt bag is trendy and timeless. The felt material is very strong and sturdy, so that the bag can be used for a long time. This makes the felt shopper a sustainable choice.

Trendy reusable bags

The material is made of 220 grams felt and is available in different colours. Furthermore, these felt bags can be closed by means of a press stud closure between the long handles. For extra carrying capacity, the bag is equipped with a plastic bottom insert. The felt bags have been extremely popular for a number of years in various industries, such as gyms, fashion stores, lingerie shops and for exhibitions.

Delivered quickly in a small edition

We have different sizes, colours and finishes of felt shoppers in stock. For example bags with a bottom and side fold, bags with a round bottom, shoulder bags and luxurious felt shoppers with a thick cotton cord. **We can deliver felt bags from 25 pieces with your logo or design, this is possible within 5 working days.**

25

Available from 25 pieces

Different types

Durable & reusable. Also available in R-PET

Reusable bags

Washable paper bags

The combination of 100% paper (cellulosic fibres) mixed with natural latex creates durable sheets of paper. Washable paper is extremely strong and is (almost) impossible to tear. Washable paper requires no maintenance. If the bag is dirty, it is best to clean the bag with a damp cloth. Wash in the washing machine? No problem, this can be done at a maximum of 30 degrees. The material becomes more beautiful and gets a vintage look as the bag is used more often.

Foldable polyester bags

The foldable polyester bags are extremely convenient to use. Because it can be completely folded to pocket size, it is often taken along for groceries. For example, you can keep this bag in your handbag and use it for shopping. This bag is a perfect marketing tool, because it can be made in any size and design. For example, you can use this bag as a promotion or as an advertisement for your store. In addition to the bag, you can also design the folding pouch according to your wishes. This can be supplied in various shapes and can, for example, be fitted with a carabiner. With this you can easily attach it to your keys or even to your bike! This way you always have a bag for groceries.

Polyester accountant bags

These bags are made from 450 D polyester which can easily carry 2 to 4 binders. Do you want thicker material? Then choose 600 D. polyester. One of the raw materials of polyester is oil, which you can also feel in the soft material. The material does not crease quickly and can easily be wiped with a damp cloth, so that it always looks luxurious and stylish.

Nylon beach bags

These bags are incredibly popular in every industry from day one. From a pharmacist to a luxury fashion or shoe store, the nylon bags are used for various purposes. There is an XL and an XXL variant available from stock, making it very suitable for both smaller products and large shoe boxes. In addition, the size can be produced completely custom made so that the bag fits well with your product. The zipper at the top protects your product against rain.

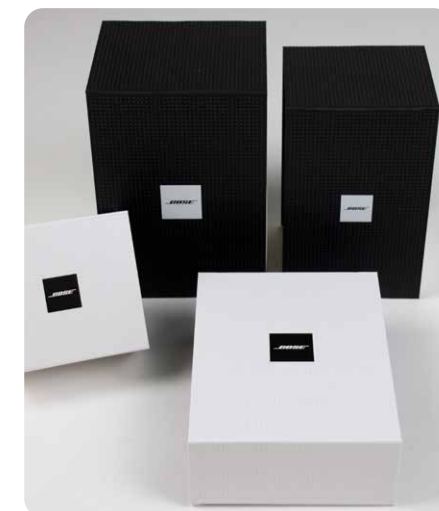

Luxury gift boxes

Luxury magnetic boxes

The magnetic boxes are available in various models and can be made completely according to your wishes. Luxury magnetic boxes are very popular and contribute to the customer experience, the unboxing experience is becoming increasingly important for consumers.

8 types of luxury gift boxes

- 1 Round boxes
- 2 Luxury magnetic boxes – plano
- 3 Luxury gift boxes with lid
- 4 Hinge boxes
- 5 Pull-out boxes
- 6 Cover boxes
- 7 Magnetic boxes – plano, set-up
- 8 Gift card boxes

Custom made inlays

With the luxury magnetic boxes, an inlay on the inside of the box is often chosen. For the material of the inlay you can choose between paper, cardboard or soft foam material. For an extra luxurious look, the foam can be provided with a velvet top. The foam inlay is very suitable for perfume bottles, for example, because it will protect your product. The inlay is completely custom made based on the products/samples you send us. It is possible to make multiple cutouts in the inlays. The entire packaging can be manufactured food-safe. Ask for the possibilities.

Luxury gift boxes with lid

Luxury gift boxes with separate lids can be produced in various ways. Consider, for example, a landscape or a portrait format, the height of the lid, the inlay, everything can be adjusted according to your wishes.

The luxury gift box is ideal for packaging and presenting jewellery, luxury wine bottles, cosmetics or lingerie. The luxury gift box with a separate lid is ideal for an inlay. This allows you to protect your product and display it in a chic way.

25

Available from 25 pieces

Durable & recyclable

Sustainable luxury gift boxes with logo

As of September 1, 2021, we have taken a sustainable but also necessary step in the field of paper packaging. All newly produced paper bags and boxes that we import from outside the EU will be FSC® certified. With this step we work entirely in accordance with EUTR legislation.

Luxury wine boxes

The luxury wine bottle boxes can be fully printed on the inside as well as on the outside in Pantone® colours and in full colour. The luxury wine bottle boxes can also be printed with special printing techniques so that the wine bottle box looks very luxurious and chic. Examples of these special prints are a hot stamp print (also called foil print), a SPOT UV print (glossy lacquer layer) or with an embossing / debossing in which part of the print is punched outwards or inwards, creating a relief.

Use of luxury wine bottle boxes

Luxury wine bottle boxes are often used to package exclusive bottles of wine, bottles of champagne or other exclusive drinks. Because the luxury wine bottle boxes have a chic look and can be produced in any desired size, these boxes can be used for any exclusive occasion. The luxury wine bottle boxes can also be produced in such a way that glasses or a present can be placed in it. The luxury wine

bottle boxes can often be found in liquor stores or in web shops that sell exclusive alcoholic drinks. When purchasing a brand-new chic car, a luxury bottle of wine packaged in a chic box is often given as a gift to the new driver by the dealer. Or think of a gala where the guests or winners of an event are thanked with a bottle of champagne that is packed in a beautiful luxury wine bottle box.

Available from 25 pieces

Different types

Durable & recyclable

Cardboard gift boxes

Are you looking for cheap gift boxes that you want to use as a pampering box, culibox, meal box or surprise box?

Then choose our customized cardboard gift boxes. The cardboard gift boxes are inexpensive boxes for packaging presents or promotional gifts. We produce and print your cardboard gift boxes made to measure. Think of the type, format, material, printing and finish.

Pop-up boxes

The pop-up boxes are suitable for various purposes but are mainly used as gift packaging.

The gift boxes are delivered flat and are simply folded together by the auto lock bottom. Due to the deep content, the pop-up boxes can be used for multiple products, such as a package for coffee beans, different teas, lingerie, but is also very suitable for festive packaging of a jewellery box.

Folding boxes

The folding boxes are used in all kinds of industries and for various purposes.

Because folding boxes are made of cardboard, they are sturdy. The folding boxes are often used in the cosmetics industry, beauty industry, perfumery industry, hair products industry, pharmaceutical industry, lingerie industry, beverage industry and food industry. Because the folding boxes are sturdy but thin and are delivered flat, these cardboard boxes are relatively cheap but still have a luxurious appearance. Folding boxes are used for packaging for example, lipstick, bottles, fragrances, toys or other objects.

Durable & recyclable

Pillow boxes

Cardboard pillow boxes are often used for packaging various gifts and also serves as protection for the product. These gift boxes are made to measure so that it can perfectly match your product. The cardboard pillow boxes are therefore suitable for packaging large items, such as a pillow or jacket, but also for small products such as a romper or a gift voucher. By adding a handle to the top of the pillow boxes, the box can easily be carried by hand.

Giftcard boxes

A gift card box is an ideal way to turn your gift card or gift voucher into a present. A luxury packaging for your gift card, which can be assembled in different ways. These boxes are provided with an inlay, so that your gift card lies securely and neatly in it. We can produce the gift card boxes in various ways. Consider for example, a box with a loose lid, a box with a closing ribbon or a simple folder. In addition to these boxes, you can also have your gift card produced by us, so that you have the complete package arranged. You can choose a paper card with handwritten text on it, or a gift card which is easy to scan at the checkout.

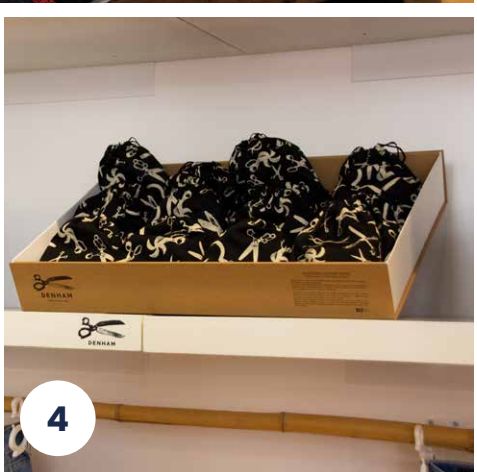

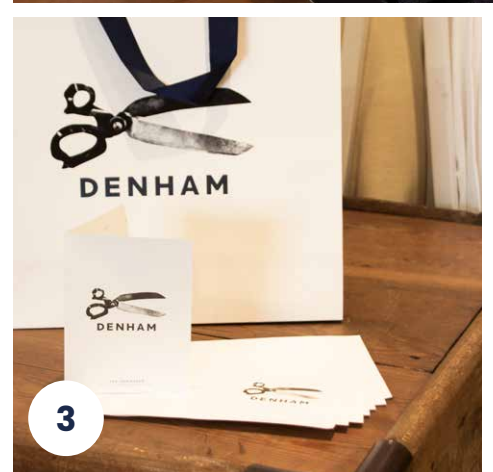

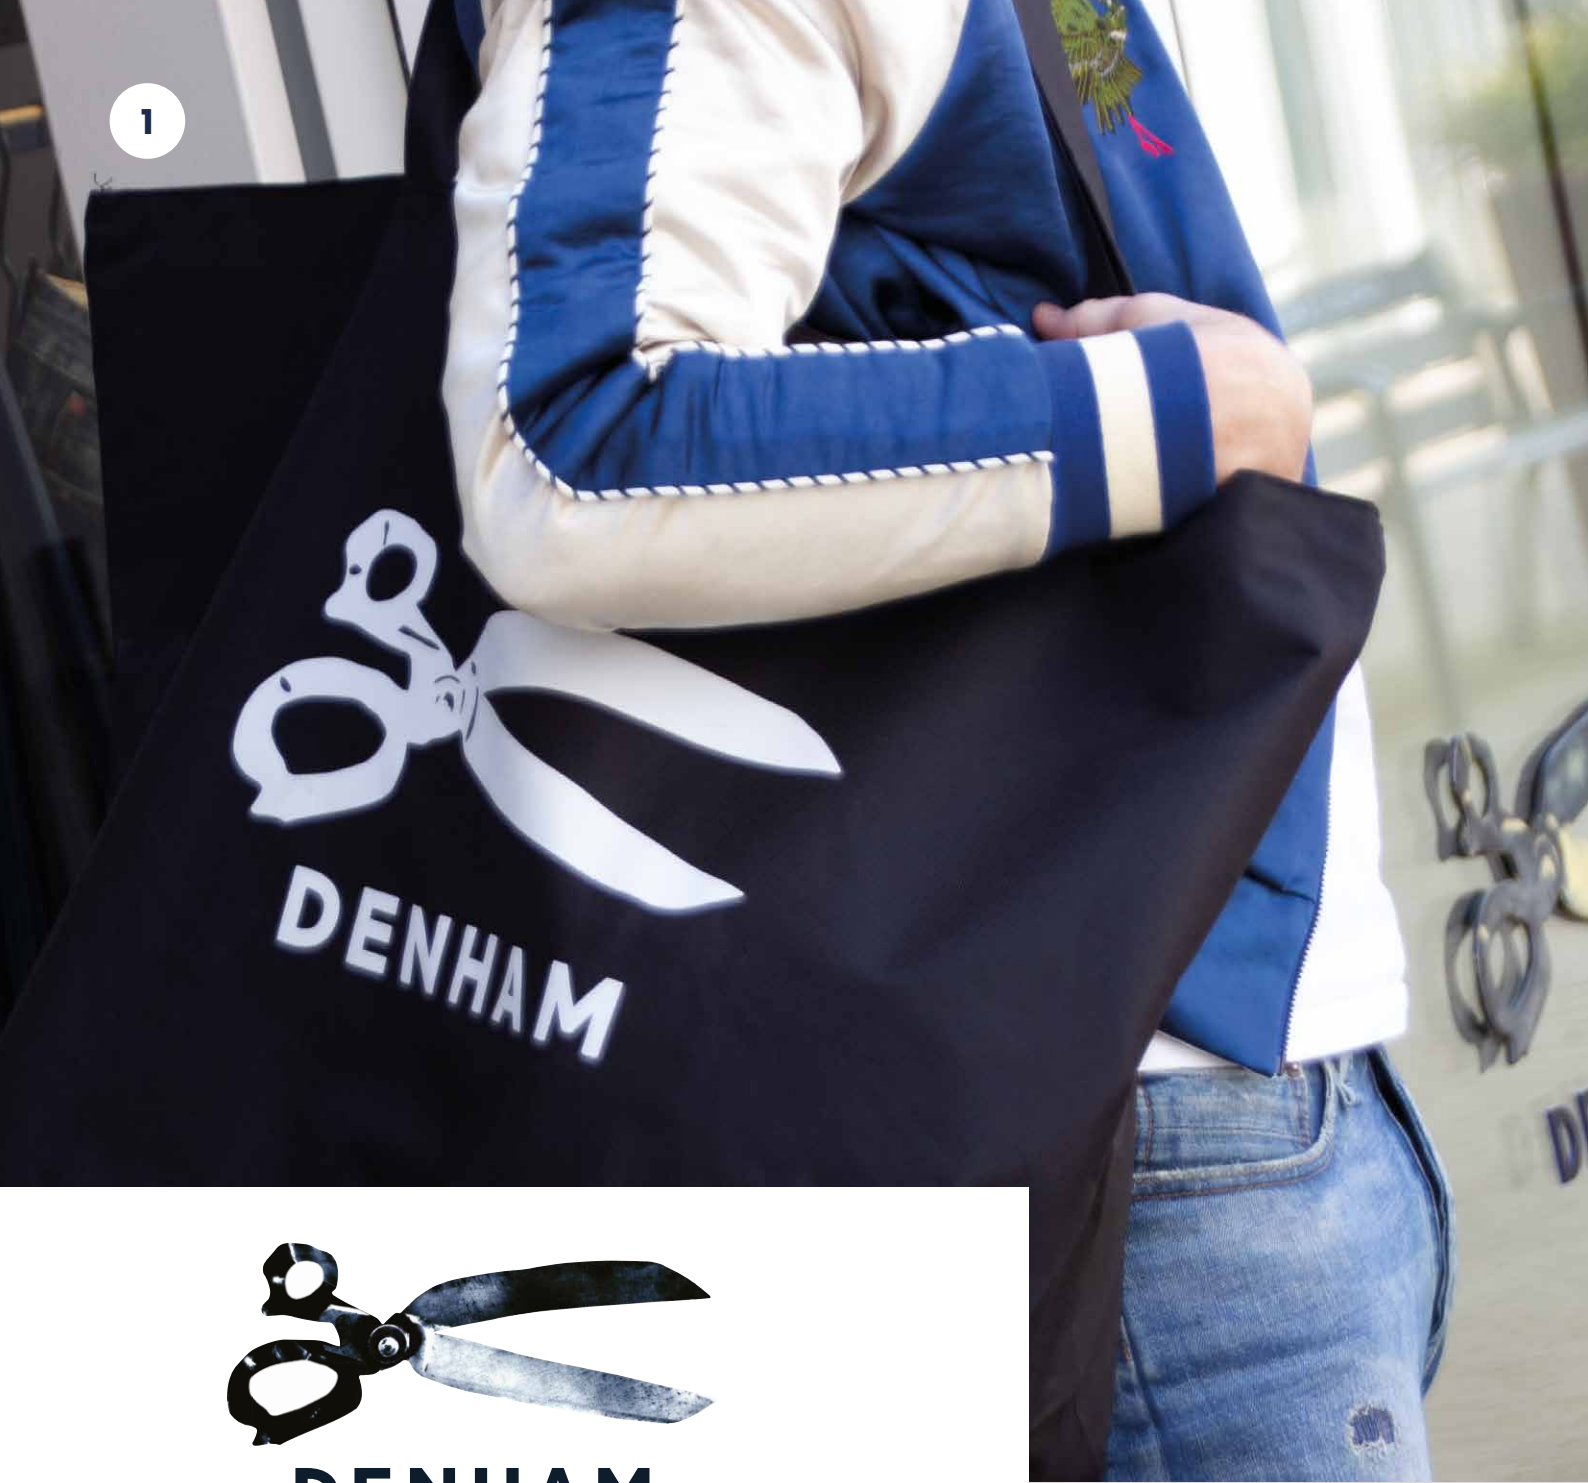

THE GIFT CARDS CAN BE MADE FROM RECYCLED KRAFT OR FSC® CERTIFIED PAPER, THIS SHOWS THAT YOU CARE ABOUT THE ENVIRONMENT.

Giftcards

Gift cards can be printed in any desired design or finish. This is possible for both the plastic cards and the paper gift vouchers. The plastic cards are printed by means of offset printing; these designs are always printed in full colour. This can be your logo or an image in multiple colours. The paper gift certificates can be printed in offset printing or screen printing. This can be done in a PANTONE® colour as well as in a full colour image. Moreover, the gift voucher can be provided with a hot stamp, which provides a luxurious look.

DENHAM

DENHAM THE JEANMAKER is one of the trendiest jeans brands at the moment in Europe and Japan. Recognizable by the well-known scissors, subtly printed on their jeans and other clothing.

präsent-service has been a fan of DENHAM for many years we are proud to deliver the entire packaging concept to DENHAM. From luxury paper bags to shipping boxes, from invoice holders to printed labels. Be inspired below by their beautifully and trendy packaging line, where the slogan “The truth is in the details” has always been kept in mind.

Shipping Packaging

Shipping envelopes & bags

Plastic shipping envelopes are mainly used for sending webshop orders.

Usually, the plastic shipping envelopes have a flat design. Do you sell shoes, boots, winter coats or products in boxes? Then choose a plastic shipping bag with a block bottom. This shipping bag has more depth and volume due to the bottom and side gussets.

Ecological paper shipping envelopes

Paper shipping envelopes are 100% recyclable and therefore sustainable. By printing paper mailing envelopes with the recycled or FSC® logo, you show your consumer that you are environmentally conscious.

Ecological plastic shipping bags

Plastic shipping bags are 100% recyclable and therefore durable. By printing plastic shipping bags with the recycled logo you show your consumer that you are environmentally conscious. Recycled plastic shipping bags can be made from post-consumer waste or industrial waste.

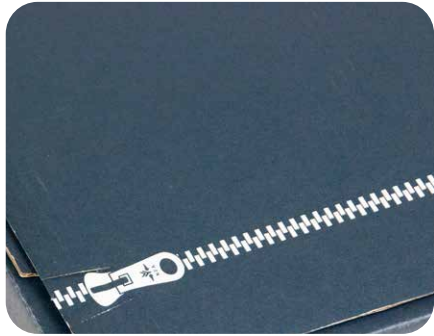

Shipping boxes

The shipping boxes can be used in various ways. Consider a postal box that fits through the letterbox or a larger box for clothes or shoes.

You can adjust the box to your desired size, making it suitable for any product. The material is strong and therefore protects your product. You can provide the box with filling material, so that you can use one size shipping box for multiple products. You can adjust the type of box you choose according to the usage. Do you ship many parcels in one day? Then choose a box with little actions. If you send less boxes, take a box with a little more actions, but a price that suits you.

You can adjust the box according to your wishes

Postal boxes for mailbox

We can produce postal boxes in all types of models with different finishes. In general, we produce the two most popular postal boxes for postal shipping boxes:

1. The classic postal boxes with an opening on the two short sides. These postal boxes are delivered flat and can easily be folded together within a few seconds thanks to the creasing lines. Once the product has been packed in the postal box, the openings can be easily closed by folding the flaps inwards and closing them. These classic postal boxes are usually made of thick, sturdy paper / cardboard.

2. The express shipping boxes, model FEFCO 0427. These postal boxes are delivered flat and can easily be assembled. These postal boxes are produced from single-layer corrugated cardboard covered with white or brown paper.

Seven types of boxes

To keep it easy for our customers, we have chosen seven models which we can produce as a standard product. We can make any style and design.

A European organization, FEFCO (Federation of Corrugated Board Manufactures), has been set up to produce different models of shipping boxes. FEFCO has a universal system in which all standard box types are described. Many of the cardboard packaging has a FEFCO number.
